MISS PEREGRINE'S HOME FOR PECULIAR CHILDREN
Ransom Riggs
long before I had trouble falling asleep, my hyperactive imagination transforming the hiss of tires on wet pavement into labored breathing just outside my window or shadows under the door into twisting gray-black tentacles. I was scared of the monsters but thrilled to imagine my grandfather battling them and surviving to tell the tale.
More fantastic still were his stories about life in the Welsh children's home. It was an enchanted place, he said, designed to keep kids safe from the monsters, on an island where the sun shined every day and nobody ever got sick or died. Everyone lived together in a big house that was protected by a wise old bird—or so the story went. As I got older, though, I began to have doubts.
"What *kind* of bird?" I asked him one afternoon at age seven, eyeing him skeptically across the card table where he was letting me win at Monopoly.
"A big hawk who smoked a pipe," he said.
"You must think I'm pretty dumb, Grandpa."
He thumbed through his dwindling stack of orange and blue money. "I would never think that about you, Yakob." I knew I'd offended him because the Polish accent he could never quite shake had come out of hiding, so that *would* became *vood* and *think* became *sink*. Feeling guilty, I decided to give him the benefit of the doubt.
"But why did the monsters want to hurt you?" I asked.
"Because we weren't like other people. We were

Mom pulled into the circular driveway behind the church at 4:56. I pretended to fiddle with my oxygen tank for a second just to kill time.
"Do you want me to carry it in for you?"

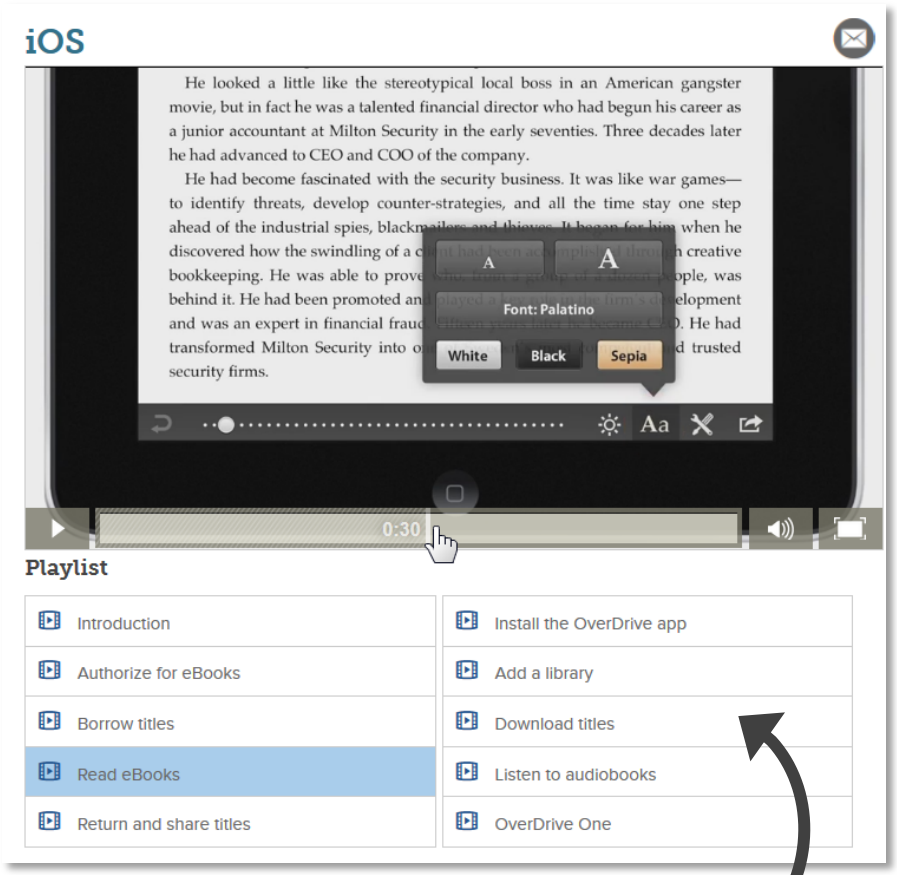
Get started: OverDrive app



iOS
He looked a little like the stereotypical local boss in an American gangster movie, but in fact he was a talented financial director who had begun his career as a junior accountant at Milton Security in the early seventies. Three decades later he had advanced to CEO and COO of the company.
He had become fascinated with the security business. It was like war games—to identify threats, develop counter-strategies, and all the time stay one step ahead of the industrial spies, blackmailers and thieves. It began for him when he discovered how the swindling of a client had been accomplished through creative bookkeeping. He was able to prove people, was behind it. He had been promoted and played a key role in the firm's development and was an expert in financial fraud. He had transformed Milton Security into one of the most trusted security firms.
